HERCULES

H-933

WINTER SERVICE | DRIVE

The Hercules H-933 is a specialized drive-position tire developed for enhanced acceleration and braking capability in winter conditions.

- Designed to meet the required performance criteria for 3 Peak Mountain Snowflake (3PMS) certification, drivers can be confident this tire can deliver in the coldest conditions.
- Unique siping provides interlocking capability for enhanced tread block rigidity and maximized biting edges for tackling slippery slopes and wintry roads.

Certified for severe winter service

HERCULES H-933

WINTER SERVICE | DRIVE

PRODUCT INNOVATIONS

- A WINTER TREAD COMPOUND**
Unique tread composition stays pliable in the coldest temperatures.
- B EXTENSIVE BITING EDGES**
Provides exceptional traction through snow and ice.
- C SELF-CLEANING OPEN SHOULDER DESIGN**
Delivers added traction without sacrificing tread life and evacuates water, slush and snow.
- D WIDE FOOTPRINT WITH DEEP TREAD DEPTH**
Deep tread depth and extra-wide footprint delivers long original treadlife and stability.

72-Month Limited Protection Policy
