**HERCULES TIRES**  
RIDE ON OUR STRENGTH.

## Terra Trac® HPT

### CUV/SUV/LT ALL-SEASON HIGHWAY TRACTION

#### BENEFITS

- **Optimized Tread Design**  
To reduce noise level, rolling resistance, and provides ride comfort
- **Semi-Open Shoulder Design**  
Optimal lateral groove arrangement improving overall traction performance
- **Four Wide Circumferential Grooves**  
Optimized groove width to maximize water evacuation and support hydroplaning resistance
- **Footprint**  
Even pressure distribution to reduce shoulder deformation and uneven wear
- **Heavy Density Siping And Groove Combination**  
Slanted angles to enhance wet road and winter traction
- **Sub Drainage Groove And Additional Siping**  
To promote water evacuation and support ride comfort
- **Opposing Grooves Angles**  
Effectively reduce stone retention and support extended treadlife
- **Solid Continuous Centre Rib**  
Work in tandem with the tread elements to provide good on-centre feel and precise handling

**HERCULES TIRES**  
RIDE ON OUR STRENGTH.

## Terra Trac® AT II 3PMS

### PREMIUM ALL-TERRAIN, ALL-SEASON

#### BENEFITS

- **3-Peak Mountain Snowflake**  
Tire meets required performance criteria in snow testing to be considered severe snow service-rated
- **Tusk Grooves**  
Create a larger voice for better all-terrain traction
- **Stone Ejector Ribs**  
Uniquely designed to resist stone drilling
- **Tapered Steps**  
Work with strategically placed angles in the centre of the groove walls reduce stone retention
- **Aggressive Upper Shoulder**  
Alternating scallops amplifies off-road traction and rugged looks
- **Tread Block Tire Bars**  
Provide excellent tread block stability
- **Transverse Double EKG Sipes**  
Create biting edges to promote all-season traction while enhancing tread block stability
