UTV / ATV TIRES

BY

HERCULES TIRES

**PREMIUM OFF-ROAD
ALL-SEASON**

Tested for toughness. Designed for you.

Ready to push the boundaries?

Whether it's work or recreation, the all-new **TIS UT1 by Hercules** is ready to take you further. Created in collaboration with the off-road division of TIS Wheels, this aggressive tire was specifically designed for UTV/ATV vehicles like yours and field-tested to take on the toughest terrain—from sand, silt and soil to loose rocks, gravel, and dirt. And it looks great doing it too, boasting a dual shoulder design that lets you pick the perfect look for your unique ride. Plus, with six sizes ranging from 14" to 15", there's a TIS UT1 made to fit what moves you. So, strap in, start it up, and step up to a tire with the features, performance and looks to take you there...and beyond.

Features and Benefits

- ◆ Built with the best—TIS OFFROAD, one of the most recognized brands in off-road to provide an **aggressive max all-terrain tire**.
- ◆ Inclined deep and wide grooves allow the tire to **enhance traction from any angle while maximizing debris-cleaning capability**.
- ◆ Balanced void ratio and innovative biting edges on the tread blocks **enable confident navigation and agility to drive off-road in a variety of terrains, such as sand, silt, loose rocks, gravel, dirt, and soil**.
- ◆ A unique system of features including an optimized footprint and tread design **creates stability, maximum handling, and confident control during acceleration and braking regardless of the terrain**.
- ◆ Center and intermediate tread blocks are designed to **provide a stable foundation and superior grip on rocks and slick surfaces while enveloping objects to confidently ride on rugged trails**.
- ◆ Rugged 8-ply construction and a specialized dual compound between the tread and shoulder **enhances durability for rock-crawling performance and increases tire life by protecting against punctures and sidewall damage**.
- ◆ Sophisticated scalloped shoulder lug design incorporates elongated stone ejectors to **help release mud for continuous traction while effectively reducing stone retention and drilling from rocks and loose soil**.
- ◆ Bold, unique dual shoulder design allows consumers to cost effectively **customize the look of their vehicle essentially offering two different tire styles in one**.

Double Identity

The **TIS UT1 by Hercules** is doing double duty. Boasting two equally bold yet distinctly unique shoulder designs, we've given you a cool and cost-effective way to switch up the look of your vehicle whenever you're ready for a change.

	TIRE SIZE	RIM WIDTH RANGE (IN)	MAX LOAD (LBS)	MAX PSI	WEIGHT (LBS)
TIS UT1 by HERCULES UTV / ATV					
14	28X10.00R14	7-8.5	737	36	32.63
	30X10.00R14	7-8.5	880	36	37.04
	32X10.00R14	7-8.5	1045	36	41.67
15	30X10.00R15	7-8.5	935	36	36.16
	32X10.00R15	7-8.5	1072	36	40.56
	35X10.00R15 (coming soon)	7-8.5	1320	36	46.96

If tires become unserviceable, we'll replace them at no charge during the first 50% of tread life.
